LANEVIS

Modernizing Operations Through Intelligent, Scalable IT Solutions

UEI: UJSBWLVVB5K7

CAGE: 7ZG05 | SBA 8(a) CERTIFIED — EXP 04/2032

ABOUT US

Lanevis provides operational, strategic and technical services to federal government, small business, and non-profit organizations. We customize our services/solution framework for each client scenario; maximizing effective outcomes while minimizing time and resources. Lanevis' top priority is to add value to client operations and initiatives; solutions that will be utilized and leveraged long after Lanevis has completed services.

CORE COMPETENCIES

- **Low / No Code & AI Solutions**
  - Business Applications
  - Automated Workflows
  - AI Solutions
- **Data Visualization & BI**
  - BI & Dashboarding
  - Dynamic Reporting
- **Project & Program Management**
  - IT Strategic Alignment
  - PMO Services

WHY LANEVIS

Lanevis is a small business leading the charge in government AI innovation. We challenge the status quo—replacing slow, manual processes with intelligent automation that delivers results from day one.

- **AI-Led Modernization**
  We don't just support IT—we transform it. Lanevis embeds AI and machine learning into existing workflows to modernize operations without costly rip-and-replace projects.

- **Automated Low-Code Development**
  Pioneering AI-driven automation of application development itself—accelerating delivery timelines and reducing dependency on traditional coding resources.

- **End-to-End AI Journey Partner**
  From strategy through implementation, we guide agencies through every phase of AI adoption: readiness assessment, pilot design, enterprise scaling, and change management.

- **Small Business Agility, Enterprise Results**
  No layers of bureaucracy. Lanevis moves fast, adapts to mission needs in real time, and delivers enterprise-grade solutions at small business speed and cost.

- **Barrier Breakers**
  We challenge procurement norms and break down organizational silos to connect technology, people, and processes—building consensus where others see obstacles.
